Mr. Kamron Saremi  
California Regional Water Quality Control Board  
Santa Ana Region  
3737 Main Street, Suite 500  
Riverside, California 92501-3339

Dear Mr. Saremi:

Subject: Level III modified QA/QC

Reference: Water Supply Contingency Plan (WSCP) – Monthly Sampling Program

The purpose of this letter is to confirm the California Regional Water Quality Control Board's (CRWQCB) agreement to institute the Level III modified Quality Analysis/Quality Control (QA/QC) data package for the Water Supply Contingency Plan (WSCP) – Monthly Sampling Program. Mr. John Hemmans of my staff spoke with you on the afternoon of August 30, 1999, regarding this subject. Pursuant to that telephone conversation, Lockheed Martin Corporation (LMC) understands that the following has been agreed to by the CRWQCB:

1. The Level III modified data package includes the full Level I tier with chromatograms and calibration information. More specifically, the itemized data package is as follows:
  - Analytical Report
  - Chain of Custody form (also for subcontracted analyses)
  - Method Blank
  - Matrix Spike/Matrix Duplicate (MS/MSD)
  - Detection Limits listed on all reports
  - Surrogate Recoveries
  - Case Narrative
  - Correction Action Reports
  - Chromatograms (including QC and samples)
  - Initial and Continuing Calibration.
2. LMC will institute the Level III modified data package beginning with the September 1999 WSCP sampling; the data package will be included in the data report submitted to the CRWQCB for September 1999.

Additionally, LMC proposes to submit the July and August 1999 WSCP Data Reports with the Level 1 modified QA/QC data package, since the sampling has already been completed. We will obtain the chromatograms and calibration information for these two reports if the CRWQCB

receives any inquiries or challenges to the data. It would be retrieved upon your request, if needed.

Should you have any questions or comments, please direct them to Mr. John Hemmans at (818) 847-0191 or Mr. Tom Blackman at (818) 847-0791.

Sincerely,

  
Carol A. Yuge
